Professional Profile

Results-driven undergraduate student at Pwani University with strong grounding in networking fundamentals and cloud technologies. AWS Certified Cloud Practitioner with experience in backend development using Python and Django REST Framework. Interested in network virtualization, cloud infrastructure design, and automation of modern network environments. Committed to continuous learning and delivering technically sound solutions.

Career Objective

To begin my professional career in network and cloud technologies, utilizing my academic background in networking, AWS cloud knowledge, and backend development skills while continuously expanding my expertise in virtualization and infrastructure automation.

Education

Pwani University, Kenya *September 2022 - 2026*
BSc. Telecommunication and Information Technology (Awaiting graduation)

St. Joseph's Junior Seminary, Mwingi *January 2018 - April 2022*
KCSE - Grade B

Technical Skills

- | | |
|--|---|
| ❖ Networking basics: CISCO | ❖ Database Management: MySQL |
| ❖ Backend Web Development: Django, HTML, CSS(Bootstrap) | ❖ Cloud Computing: AWS Certified |
| | ❖ Data Analysis: Python, Excel |

Experience:

Swahilipot Hub Foundation, Mombasa
Industrial Attachment at SwahiliPot Hub Foundation *May 2025 – August 2025*

Hobbies s Interests

- ❖ Exploring cloud computing, 5G, and telecommunications advancements.
- ❖ Engaging in coding projects and open-source contributions.
- ❖ Active participation in tech communities.

Referees
