RE: APPLICATION FOR TECHNICAL SERVICES INTERN POSITION

I am writing to express my interest in the Technical Services Intern position at Kenya Broadcasting Corporation (KBC). I have recently completed my four-year bachelor's degree in Telecommunications and Information Technology and am currently awaiting my graduation later this year.

Through my academic training, I have developed a strong foundation in telecommunications systems, networking technologies, electronic communication principles, and technical support operations. My coursework has equipped me with practical knowledge in network configuration, troubleshooting, systems analysis, and communication infrastructure.

In addition to my telecommunications background, I possess computer proficiency and practical programming skills in Python, including experience working with the Django framework for web-based applications. I also hold a Cisco Fundamentals of Networking certification, which has strengthened my understanding of network systems, connectivity management, and communication technologies.

I am particularly interested in this internship opportunity because it aligns closely with my passion for technical systems, telecommunications infrastructure, and broadcast technology support. I am eager to gain hands-on industry exposure while contributing positively to KBC's Technical Services team through my technical knowledge, adaptability, and willingness to learn.

I believe that my academic background, technical competencies, and commitment to continuous learning would enable me to make a valuable contribution during the internship period. I would greatly appreciate the opportunity to further discuss my suitability for this position.

Thank you for considering my application. I look forward to your favourable response.

Yours sincerely,

Kelvin Katwai
