The Human Resource Manager
Kenya Medical Research Institute – Kilifi,
P.O. Box 230 – 80108, Kilifi,
Kenya,

Dear Sir/Madam,

**RE: APPLICATION FOR INTERNSHIP OPPORTUNITY IN THE ICT/SOFTWARE
DEVELOPMENT DEPARTMENT**

I am writing to express my strong interest in an internship opportunity within the ICT Department at KEMRI Kilifi, particularly in the Software Development and Systems Support team. I recently completed my Bachelor of Science degree in Telecommunications and Information Technology at Pwani University and am currently awaiting graduation later this year.

Through my academic training and personal technical projects, I have developed a solid foundation in software development, networking systems, database management, and ICT infrastructure support. I possess practical programming skills in Python and have hands-on experience building backend web applications using the Django framework. My experience includes working with databases, system logic implementation, troubleshooting technical issues, and developing structured digital solutions.

In addition, I hold a Cisco Fundamentals of Networking certification and an AWS Certified Cloud Practitioner certification, which have strengthened my understanding of modern ICT environments, network systems, cloud technologies, and system integration. These skills have enabled me to approach technical challenges with both analytical thinking and practical problem-solving capabilities.

I am particularly interested in KEMRI because of the institution's strong reputation in research, innovation, and the use of technology to support healthcare and scientific advancement. I am highly motivated by the opportunity to contribute to an environment where software systems and ICT infrastructure play a meaningful role in supporting research operations, data management, and organizational efficiency.

Beyond technical knowledge, I am a fast learner, adaptable, and highly committed to continuous improvement. I am eager to gain practical industry exposure while contributing positively to your ICT team through dedication, professionalism, and willingness to learn from experienced professionals.

I would greatly appreciate the opportunity to be considered for an internship placement within your department. I am confident that the experience and exposure at KEMRI would significantly contribute to my professional growth while allowing me to add value to your team.

Thank you for your time and consideration. I look forward to the possibility of discussing my application further. Yours faithfully,

Kelvin Katwai Mutua
