

KELVIN KATWAI MUTUA

Phone: +254 112 871 337 | Email: kelvinkatwai@gmail.com | Kilifi, Kenya

PROFESSIONAL PROFILE

Motivated and detail-oriented Telecommunications and Information Technology undergraduate student from Pwani University with strong practical skills in software development, ICT systems support, database management, and networking technologies. Experienced in Python programming and backend web development using Django and Django REST Framework.

Possesses hands-on exposure to system troubleshooting, application development, and ICT infrastructure support. Demonstrates strong problem-solving abilities, analytical thinking, and a commitment to delivering efficient technical solutions.

AWS Certified Cloud Practitioner with practical experience in building and deploying web-based systems and a strong interest in software engineering, backend development, and ICT infrastructure systems.

CAREER OBJECTIVE

To secure an internship opportunity within an ICT and Software Development environment where I can apply my skills in Python programming, backend systems development, database management, networking, and ICT support while gaining hands-on industry experience in software engineering and enterprise ICT operations.

EDUCATION

Pwani University - Bachelor of Science in Telecommunication and Information Technology - September 2022 – 2026 Completed Coursework – Awaiting Graduation (2026)

St. Joseph's Junior Seminary Mwingi - Kenya Certificate of Secondary Education (KCSE) – January 2018 – April 2022 *Attained Grade - B*

TECHNICAL SKILLS

Software Development & Programming

Python Programming | Django & Django REST Framework | HTML, CSS, Bootstrap | Backend systems development | REST API concepts

ICT Support & Networking

ICT systems troubleshooting | Computer systems support | Networking fundamentals (Cisco) | LAN/WAN concepts technical problem diagnosis

Cloud & Infrastructure

AWS Certified Cloud Practitioner | Cloud infrastructure fundamentals | Basic cloud security concepts |

Data & Reporting Skills

Data cleaning and preprocessing | Python for basic data analysis | Microsoft Excel and Google Sheets | Reporting and data interpretation |

EXPERIENCE

Industrial Attachment Inter - *Swahilipot Hub Foundation Mombasa* May 2 – August 2025

Supported ICT and digital systems operations within the organization | Participated in backend development tasks using Python and Django framework | Supported troubleshooting and technical system issue resolution | Gained practical exposure to software development workflows and ICT operations

PROJECTS

Carpenter Track – Web-Based Management System

Designed and developed a web-based management application for carpenter workflow tracking and operations management. The system was built using Python and Django framework with integrated database functionality for efficient record handling and system operations. Project link: carpentertrack.onrender.com

CERTIFICATIONS

AWS Certified Cloud Practitioner - Amazon Web Services

Networking Devices and Configuration - Cisco

Data Analysis Certification - Jenga School of IT

TECHNICAL INTERESTS

Software development and backend systems | ICT infrastructure and systems support | Database systems and digital transformation | Telecommunications and networking systems | Research-support technologies
